

# enDuraprint™

Printable Plastic Paper

Spartech's PolyPrime™ line of products offers many unique brands to fit a variety of applications. enDuraprint™ is a plastic engineered for printability, rigidity and stiffness similar to paper. It's a synthetic paper for applications that require durability and tear resistance. The printable poly paper has a soft-touch feel with dimensional stability and a lower cost. enDuraprint™ is ideal for restaurant menus, recipe books, instruction manuals, maps and book jackets. It folds, looks and feels just like high-quality paper, but it won't tear, puncture or absorb water.

## BENEFITS

- Rigidity and stiffness similar to paper
- Alternative to Pro-Print® and other synthetic paper products
- Tear and water resistant
- UV printable - offset, flexo, screen and digital
- Excellent lay flat properties
- Available in white opaque with our PolyLux™ finish
- Thicknesses between 0.012G and 0.028G in both sheet and roll stock
- Recyclable product (code #5)

## enDuraPrint™ TYPICAL PHYSICAL PROPERTIES
