

SHAPING THE FUTURE OF PLASTICS

THROUGH MATERIAL STRENGTH
AND APPLICATION EXPERTISE

**PLASTICS ARE ESSENTIAL
TO LIVING IN OUR WORLD.**

And Spartech is making a world of difference in plastic solutions that are sustainable, diverse, reliable and helping bring innovative ideas to life. To us, plastics make life better. You see it, touch it and depend upon plastic for everything from food packaging to packaging for medical devices, aerospace and automotive applications. We're making all this possible every day. As for where Spartech will take plastics tomorrow, there's no limit.

We're a reliable partner that uses our plastics expertise to shape your project for success.

It means we are responsive and deliver the custom plastic packaging and sheet and rollstock products you require. These solutions meet your specifications, timelines and budget requirements.

PACKAGING TECHNOLOGIES

From concept to functional packaging design, Spartech is shaping the way companies take their products to market. Whether you require medical packaging for surgery kits or pharmaceuticals to consumer goods, we work with you as a partner. We listen, ask questions and then provide the kind of application development solutions that deliver market differentiation and enhanced brand image.

- Custom application solutions, product design and prototyping
- Custom barrier and non-barrier thermoformed containers
- 14 manufacturing facilities for speed to market and cost-effective solutions
- Material expertise for barrier and non-barrier rollstock applications
- Meets U.S. Food and Drug Administration (FDA) medical protocols
- For sustainability, Spartech will evaluate a resin's properties, ability to be down-gauged and its recyclability/compostability.

CUSTOM SHEET & ROLLSTOCK

Our custom sheet and rollstock solutions work, because we work with you. We learn about your performance requirements, project timelines, pricing and even your material selection ideas. It can be for automotive dashboards, medical devices, surgery room wall coverings or even military aircraft canopies. No matter what you require, we come back to you with the right material solution that's more cost-effective, performance proven and ideal for manufacturability.

- A wide variety of material formulations, including medical grade acrylic rods and sheet
- Application expertise in medical, automotive, aerospace and building/construction
- Trusted and proven brands like Polycast,[®] Royalite[®] and Korad[™]
- On-time and on-budget delivery with supply chain reliability
- A responsive partner

We are a leading plastics manufacturer that leverages our knowledge of materials, processing, and application development to deliver the highest level of value to our customers.
